

Worksheet 2015-4AA-00002

NUMBER PATTERNS

(1) Complete the patterns:

(a) The ten numbers **smaller than 800**:

799	798	797	796	795	794	793	792	791	790
------------	------------	------------	------------	------------	------------	------------	------------	------------	------------

(b) Even numbers **from** 304 to 320:

304	306	308	310	312	314	316	318	320
------------	------------	------------	------------	------------	------------	------------	------------	------------

(c) The ten even numbers **between** 520 and 540:

522	524	526	528	530	532	534	536	538
------------	------------	------------	------------	------------	------------	------------	------------	------------

(d) **Uneven numbers** from 799:

799	801	803	805	807	809	911	913	915	917	919
------------	------------	------------	------------	------------	------------	------------	------------	------------	------------	------------

(e) The ten **even numbers** smaller than 600:

598	596	594	592	590	588	586	584	582	580
------------	------------	------------	------------	------------	------------	------------	------------	------------	------------

(f) The ten **uneven numbers** greater than 689:

691	693	695	697	699	701	703	705	707
------------	------------	------------	------------	------------	------------	------------	------------	------------

(g) The first ten **multiples of 7 in decreasing order**:

70	63	56	49	42	35	28	21	14	7
-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	----------

(h) The first ten ***multiples of 8 in decreasing order:***

80	72	64	56	48	40	32	24	16	8
-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	----------

(i) Start at 125 ***increase each number by 5 :***

125	130	135	140	145	150	155	160	165	170
------------	------------	------------	------------	------------	------------	------------	------------	------------	------------

(j) Start at 899 and ***count in ten's :***

899	909	919	929	939	949	959	969
------------	------------	------------	------------	------------	------------	------------	------------

(k) The first twelve ***multiples of 5 in decreasing order:***

60	55	50	45	40	35	30	25	20	15	10	5
-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	----------

(l) The first twelve ***multiples of 9 in decreasing order:***

108	99	90	81	72	63	54	45	36	27	18	9
------------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	----------

(m) The first ten ***even numbers that are also multiples of 5 :***

10	20	30	40	50	60	70	75	80	90
-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------

(n) The ***multiples of 3 that are also uneven numbers*** . Start at 15 :

15	21	27	33	39	45	51
-----------	-----------	-----------	-----------	-----------	-----------	-----------

(o) Start at 21 and count in four's up to 61:

21	25	29	33	37	41	45	49	53	57	61
-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------
