

Mass: compare items on scales

2Hc-00001-2017-memo

Which weighs the most? the books

Which weighs the least? the shoe

How many blocks weighs: the books 19 blocks

the mug 8 blocks

the shoe 7 blocks

How many blocks will two shoes weigh? $7 + 7 = 14$ blocks

How many blocks will three mugs weigh? 24 blocks

How much does everything together weigh? $19 + 8 + 7 = 34$ blokkies

How many blocks is the mug heavier than the shoe?

$8 - 7 = 1$ blokkie

How many blocks is the mug lighter than the books?

$19 - 8 = 11$ blocks

Will each of the books weigh the same? Why?

No, they are different sizes

If you take off the top three books, guess how much weighs the books that are left. 12 – 15 blocks
