

Time**Knowledge****Question 1:**

Write down the correct answer after you have rounding it.

	<u>Answer</u> <u>(After rounding)</u>		<u>Answer</u> <u>(After rounding)</u>
(a) 4 789(100)	$\approx$ <u>4 800</u>	(b) 67 892(10)	$\approx$ <u>67 890</u>
(c) 67 344(1 000)	$\approx$ <u>67 000</u>	(d) 4 555, (100)	$\approx$ <u>4 600</u>
(e) 9 999((10)	$\approx$ <u>10 000</u>	(f) 6 452((1 000)	$\approx$ <u>6 000</u>

Understanding**Question 2:**

Determine the answers

(a) 7 hours + 4 hours =	<u>11</u>	hours =	<u>0</u>	days and	<u>11</u>	hours
(b) 15 hours + 12 hours =	<u>27</u>	hours =	<u>1</u>	days and	<u>3</u>	hours
(c) 5 x 24 hours =	<u>120</u>	hours =	<u>5</u>	days and	<u>0</u>	hours
(d) 13 hours + 10 hours =	<u>23</u>	hours =	<u>0</u>	days and	<u>23</u>	hours
(e) 3 x 36 hours =	<u>108</u>	hours =	<u>4</u>	days and	<u>12</u>	hours
(f) 15 hours + 9 hours =	<u>24</u>	hours =	<u>1</u>	days and	<u>0</u>	hours
(g) 12 hours + 36 hours =	<u>48</u>	hours =	<u>2</u>	days and	<u>0</u>	hours
(h) 36 hours – 6 hours =	<u>30</u>	hours =	<u>1</u>	days and	<u>6</u>	hours
(i) 48 hours – 24 hours =	<u>24</u>	hours =	<u>1</u>	days and	<u>0</u>	hours
(j) 6 hours + 3 hours =	<u>9</u>	hours =	<u>0</u>	days and	<u>9</u>	hours

Application

A cake starts to bake at 07:20 in the oven. If it takes the cake a quarter of an hour to bake, when will it be done?

$$07:20 + 45 \text{ min} = 08:05$$
